Ergonomic system: Safety, Space and Functionality

CEILING PENDANT WITHOUT VERTICAL MOVEMENT optimizes the space in the critical areas and operation rooms. It guarantees a rapid response for the medical staff and provides ergonomic and safe interventions.

CEILING PENDANT WITHOUT VERTICAL MOVEMENT is designed by Tedisel for ICU and operating theatres. Allows the medical personnel to provide a quick response in any situation. In the operating theatre, integrate and support the medical equipment required for the different interventions and maintain the cables outside the surgery table environment, guaranteeing the ergonomic work and safety in the placement of the monitoring equipment.

Non-motorized without arms

Brakes	Friction
Lengths	120 - 1800 mm
Capacity load	385kg

Non-motorized simple arms

Brakes	Friction / Electropneumatic / Electromagnetic
Lengths	600 / 800 / 1000 / 1200 / 1400 / 1600 mm
Capacity load	1000kg to 300kg

Non-motorized double arms

Brakes	Friction / Electropneumatic / Electromagnetic
Lengths	600/600 - 600/800 - 600/1000 - 600/1200 - 800/800 - 800/1000 - 800/1200 - 1000/1000 - 1000/1200 mm *
Capacity load	540kg to 130kg

* More lengths available

Service head

Height in vertical position	500 / 750 / 1000 / 1250 / 1500 mm
Height in horizontal position	600 / 750 / 1000 mm*
Capacity load	100kg

* Possibility to add fixed trolley

Direct ceiling fixing with rotation

Single arm fixing

Double arm fixation

Tandem*

*Tandem option with two arms. The arm configuration can be any available.

SUBMODEL: WITH VERTICAL MOVEMENT

Single motor arm

Double motor arm

Tandem*

*Tandem option with double rotating arms. The arm configuration can be also with the rotary neck model, and the motorized and spring models.

Motorized simple arms

Brakes	Friction / Electropneumatic / Electromagnetic
Lengths	1000 mm
Capacity load	210kg to 250kg

Motorized double arms

Brakes	Friction / Electropneumatic / Electromagnetic
Lengths	600/1000 - 800/1000 - 1000/1000 - 1200/1000 mm*
Capacity load	140 kg to 250kg

* More lengths available

Service head

Height in vertical position	500 / 750 / 1000 / 1250 / 1500 mm
Height in horizontal position	600 / 750 / 1000 mm*
Capacity load	100kg

* Possibility to add fixed trolley

Ergonomic system: Safety, Space and Functionality

CEILING PENDANT WITH VERTICAL MOVEMENT optimizes the space in the critical areas and operation rooms. It guarantees a rapid response for the medical staff and provides ergonomic and safe interventions. Its motorized system ensures easy vertical movement.

CEILING PENDANT WITH VERTICAL MOVEMENT is designed by Tedisel for ICU and operating rooms. The arms allow healthcare personnel to provide a rapid response in any situation. They ensure an ergonomic and functional layout, both for the medical staff and the patient. The arms facilitate the proximity of the medical team to the medical staff.

Spring simple arms

Brakes	Friction / Electropneumatic / Electromagnetic
Lengths	1015 mm
Capacity load	180kg to 22kg

Spring double arms

Brakes	Friction / Electropneumatic / Electromagnetic
Lengths	600/1015 - 800/1015 - 1000/1015- 1200/1015 mm*
Capacity load	180kg to 22kg

* More lengths available

Spring Single arm

Spring double arm

Tandem*

*Tandem option with two arms. The arm configuration can be any available.
