Speakers

Centralize your OR and optimize the maintenance

Q PANEL is our reference model, known for its Corian® surface and its flexibility in terms of size and component integration. This model can incorporate various touch or display screens, electrical outlets, watches and many more components.

Q PANEL is designed to centralize all the needed controls, elements, and visuals in an operation theater. Compatible with PACS, nurse stations and control software.

The panel is made of Solid Surface or phenolic resin combined with crystals for medical use, which vary depending on type and size of its functionality

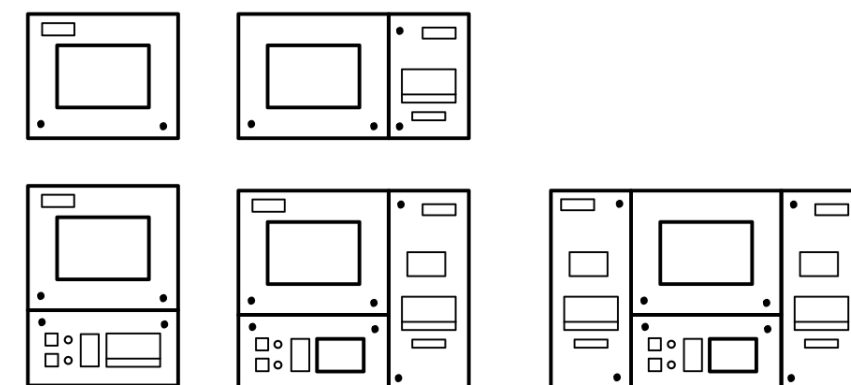

Corian material characteristics:

- Non-porous, indicated for strict asepsis environments such as operating theaters.
- Inert, in case of fire, the gases of its combustion are not toxic.
- It is completely waterproof it is ideal for use in Hospitals, operating theater/surgery areas

The crystals are:

- Antireflective
- Medical grade
- Vitrified, being opaque and transparent
- Surface according to the areas that require or display

The combination of Solid Surface and tinted glass, give the Panel an innovative aesthetic with a smooth finish for easy cleaning.
